

## Humanscale – Liberty Mesh Chair

### Description

#### Liberty's Features and Innovations

**1. Self-Adjusting Recline** Intelligent counter-balance recline mechanism automatically provides the right amount of support through the full range of recline motion, regardless of user size and weight

• No tension springs to adjust

• No recline locks to set/release

• During recline, the angle between torso and legs opens up for better body function

• User maintains near constant eye level during recline

**2. Pivoting Backrest** Extra motion of the backrest during recline automatically adjusts to the changing needs of the spine

• Provides additional lumbar support as needed

**3. Form-Sensing Mesh Back** Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for a customized fit

• No external lumbar devices to adjust, break or lose

• Low-abrasion mesh protects clothing

• Modular for easy replacement

**4. Contoured Seat Cushion** Carefully sculpted to match body contours

• Increased contact area reduces pressure points

• Modular for easy replacement

**5. Armrest Options**

• Adjustable or fixed armrests connect to the backrest instead of the seat so they stay with the body during recline

• Armless model also available

**6. Body Fit** Designed to fit 95% of the office population (5'0" – 6'4" height, 120kg weight loading)

• Automatic adjustments

• Weight-sensitive recline

• Form-sensing lumbar support

• Manual adjustments

• Optional height-adjustable armrests

• Seat height

. Seat depth

**7. Casters**

• dual-surface casters roll easily on carpeted floors and quietly on hard floors
