

Oxygen – Mesh Sled White Frame with Black shell

## Description

Oxygen combines the latest in design elements with newest technology. This creates a truly functional and aesthetically pleasing visitor or conference chair. Seat and back plastic, 100% recyclable polypropylene injection, with the seat able to be upholstered. Slim powder coated sled frame standard with linking, stacking for high functionality.

Independently tested by Catas.

These tests have been carried out according to table 1 of EN 16139:2013, level L2 – extreme.
